CYBERSECURITY / ETHICAL HACKING · 2026

Job-Ready Roadmap

Absolute zero theke junior job — tarpor international remote e senior level. Ki shikhbe, kon order e, kivabe proof dekhabe, kivabe job pabe.

18–24
mash
Zero theke junior job-ready

12–18
mash
Computer already jana thakle

3–5
bochor
International remote senior

2–3
ghonta/din
Consistent practice

PART 1 · SECTION 01–14

Junior Job-Ready

Phase 0–5 · Mash 1–24 · computer basics theke prothom job/client

PART 2 · SECTION 15–23

Advanced Remote

Phase 6–8 · Mash 24–60 · international remote e mid/senior

Ei guide kar jonno: ekdom absolute zero (computer on korte o jano na) theke shuru kore job-ready howa porjonto. Already computer/IT jano? Phase 0 skip kore Phase 1 theke shuru koro.

Ki ache ei guide e

Part 1 tomake zero theke junior job e nibe. Part 2 sheta ke international remote e mid/senior level e nibe. Shuru korar age **section 02** er timeline ta dekho, puro journey ek nojore bujhte parbe.

PART 1 · JUNIOR JOB-READY

01 **Bastobota: 2026 e entry-level** — Entry-level keno kothin, AI ki replace korche, ki korche na — 3

02 **Roadmap ek nojore** — 9 ta phase, 0–60 mash — puro journey ek chart e — 4

03 **Phase 0 — Computer Literacy** — Ekdom zero theke: PC, Windows, internet, English, IT basics — 5

04 **Phase 1 — Foundation** — Networking, Linux, Windows, web, Python, tools — 7

05 **Phase 2 — Core Offensive Skills** — Web app hacking, recon, network pentest — 8

06 **Phase 3–5 — Cert, Specialize, Job** — Prothom cert, public proof, specialization, apply — 9

07 **Certification Strategy** — Kon cert, kon order e, keno — 10

08 **Portfolio & Proof** — HR filter pass korar jinish — 11

09 **AI Skill Layer — 2026 e must** — AI diye kaj + AI system er security — 12

10 **Web / WordPress Path** — Optional shortcut — web dev skill thakle — 13

11 **Job Hunting Strategy** — Bangladesh theke remote / local / freelance — 14

12 **Weekly Routine + Common Bhul** — Din e 2–3 ghonta — ki kokhon korbe, ki korbe na — 15

13 **Legal & Ethics — Must-know** — Permission chara kichu na — must-know rules — 16

14 **Junior Job-Ready Checklist** — Part 1 shesh — apply korar age — 17

PART 2 · ADVANCED REMOTE

15 **Advanced Remote: Bastobota** — Senior remote role e company ki dekhe — 19

16 **Roadmap Extension — Phase 6 to 8** — Mash 24–60: specialization → paid exp → senior — 20

17 **Specialization Tracks** — 6 ta advanced lane — ekta primary, ekta secondary — 21

18 **Core Advanced Skills** — Je skill shob track e lagbe — 22

19 **Advanced Certification Map** — Shob nite hobe na — nijer track er 1–2 ta — 22

20 **Remote-ready Professional Skills** — English, async kaj, setup, payment, contract — 23

21 **Experience + Remote Job Hunting** — Remote theke-i experience banano ladder — 24

22 **Interview & Negotiation** — Senior interview format + rate/salary — 25

23 **Advanced Remote Checklist** — Senior remote role e apply korar age — 26

01 Bastobota: 2026 e entry-level

Entry-level keno kothin, AI ki replace korche, ki korche na

MUL KOTHA

Demand ache, kintu junior seat kom ar applicant onek beshi. Ekta junior role e hazar hazar application porche. Certificate e jothesto na, **proof of skill** lagbe.

AI ja replace korche

Ei kaj e competition shobcheye beshi

- Basic vulnerability scanning, tool chalano, scripted exploit — mostly automated.
- Tier-1 SOC alert triage er boro ongsho AI-assisted.
- Generic report writing — AI draft kore fele.

AI ja parche na — tomar edge

Ekhane focus koro

- Business logic flaw (price manipulate, IDOR, access control bypass).
- Context bujhe risk decide kora — client er jonno ki asholei critical.
- Chhoto bug chain kore boro impact banano.
- AI system nijei test kora (prompt injection, agent abuse).
- Client er sathe communicate, scope set, fix explain.

FORMULA

Tool operator hoyo na, **thinker** hou. **Fundamentals + manual testing + AI fluency** — ei tin ta thakle entry barrier onek kome jay.

Kon entry role realistic

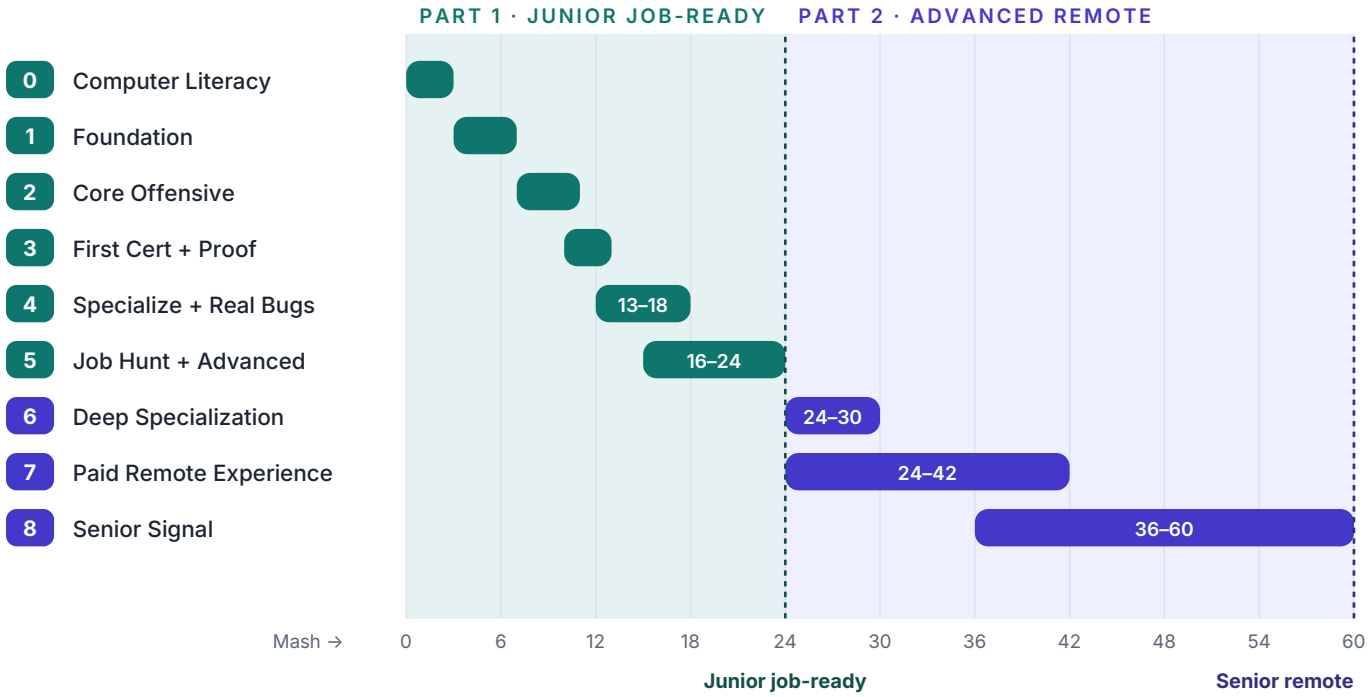

Role	Kaj	Kar jonno bhalo
SOC Analyst (L1)	Alert monitor, triage, escalate	Job chai druto, stable salary
Junior Pentester	Web/network test, report	Offensive side e interest
Application Security	Code review, secure dev, SAST/DAST	**Developer background thakle best**
Vuln Researcher / Bug Hunter	Bug khuje report, bounty	Freelance/independent mindset
Security-focused Web Dev	Secure build + audit service	Existing client base thakle

02 Roadmap ek nojore

9 ta phase, 0–60 mash — puro journey ek chart e

MUL KOTHA

Zero theke junior job-ready: **18–24 mash** (din e 2–3 ghonta). Computer already jano: **12–18 mash** (Phase 0 skip). Senior remote: aro **18–36 mash**.

Phase	Shomoy	Focus	Shesh e output
0 · Computer Literacy	Mash 1–3	PC, typing, Windows, internet safety, English	Confident PC use, 30+ WPM
1 · Foundation	Mash 4–7	Networking, Linux, web basics, Python	THM beginner path + notes
2 · Core Offensive	Mash 8–11	Web app hacking, recon, network pentest	PortSwigger 100+, 20+ machine
3 · First Cert + Proof	Mash 11–13	eJPT/PNPT prep, writeup	1 practical cert, public writeup
4 · Specialize + Bugs	Mash 13–18	AppSec / WordPress / cloud / AI	Real CVE / bounty / disclosure
5 · Job Hunt	Mash 16–24	Apply, network, OSCP (optional)	Job / client / contract
6 · Deep Specialization	Mash 24–30	Ekta advanced track + core skill	Advanced cert, research post
7 · Paid Remote Exp.	Mash 24–42	Freelance, PtaaS, contract	12–18 mash paid kaj
8 · Senior Signal	Mash 36–60	Research, CVE, talk, open-source	Senior remote offer

RULE

Protiti phase e **output** thakbe — notes, writeup, report, GitHub repo. Shudhu video dekhe “shikhechi” bola chalbe na. Je jinish dekhano jay na, HR er kache seta exist kore na.

03 Phase 0 — Computer Literacy

Ekdom zero theke: PC, Windows, internet, English, IT basics

PHASE 0 · MASH 1–3

Computer Literacy

Mash 1–3

Goal: computer ke nijer haater moto chalano. Already computer/IT jano? Phase 0 skip kore Phase 1 e jao.

Ki lagbe

Jinish	Minimum	Recommended (pore lab er jonno)
Laptop/Desktop	Jekono chalu PC	RAM 16 GB, SSD 512 GB, i5/Ryzen 5+ (VM chalate)
Internet	Stable broadband/mobile data	Broadband — video + lab download e onek data
Onnanno	Notebook-kolom	Headphone, pore second monitor

Taka kom thakle 8 GB RAM diye Phase 0–1 korte parba; Phase 1 er shesh e (lab banano) RAM baraleo cholbe.

Computer chalano

Week 1–3

- Hardware chena: CPU, RAM, SSD, port (USB/HDMI/LAN).
- Shut down / Restart / Sleep, hang hole ki korba.
- Mouse + keyboard er shob key, Bangla-English switch.
- **Typing:** din e 20–30 min → 30+ WPM.

Windows OS

Week 3–6

- Start menu, window switch (Alt+Tab).
- File Explorer, extension (.pdf .exe .zip) show on.
- Software install — official site only; update.
- Shortcut: Ctrl+C/V/X/Z/A/S/F, Win+E, Win+D, Ctrl+Shift+Esc.
- Task Manager, ZIP/RAR, Notepad → VS Code.

Internet, email + safety

Week 5–8

- Browser: tab, bookmark, download, incognito, extension.
- **Search skill = hacker der #1 skill:** English keyword, “quotes”, error copy-paste.
- Gmail, Google Drive upload/share.
- Bitwarden password manager + 2FA, phishing chena.
- bKash/Nagad OTP scam, fake job offer kivabe hoy.

IT fundamentals + math

Week 8–12

- Input → process → output, OS, file system, memory vs storage.
- Router, IP address, Wi-Fi vs LAN, website kivabe load hoy.
- Binary / decimal / hex conversion (subnetting e lagbe).
- AND / OR / NOT, if-then — programming er bhit.
- CMD: cd, dir, mkdir, ipconfig, ping. VirtualBox + Ubuntu.

Puro Phase 0 dhore: Technical English + shekhar skill

English

- Din e 20–30 min English tech video/article (subtitle on).
- Din e 5 ta notun technical word note koro.

Shekhar abhyas

- AI ke tutor: “Banglay shohoj kore bujhao” — kintu practice nije.
- Din e 3 line notes. Atke gele age **20 min nije Google**, tarpor prosno.

RESOURCE keybr.com | typing.com | GCFGlobal Computer Basics | YouTube: computer basics bangla | Professor Messer (A+) | CS50 | TryHackMe Pre-Security

Phase 0 pass test — shob parle Phase 1 e jao

01	Kono help chara PC on/off, software install, file organize	☐
02	30+ WPM typing	☐
03	Error message Google kore nije 3–4 ta problem solve	☐
04	Password manager + 2FA nijer account e on	☐
05	Binary ↔ decimal convert	☐
06	CMD/PowerShell e basic command	☐
07	VirtualBox + Ubuntu install kore chalano	☐
08	English beginner tech video bujhte paro (subtitle soho)	☐

04 Phase 1 — Foundation

Networking, Linux, Windows, web, Python, tools

PHASE 1 · MASH 4–7

Foundation

Mash 4–7

Shortcut nile pore atke jaba. Advanced pentester ra shobai fundamentals e strong. Shobcheye kothin phase — dhoirjo rakho, lagle 1–2 mash beshi nao.

Networking

- OSI / TCP-IP model, TCP vs UDP, 3-way handshake.
- IP/subnetting, DNS, DHCP, HTTP/HTTPS, TLS basics.
- Common ports: 21 22 25 53 80 443 445 3306 3389.

Linux

- File system, permissions (chmod/chown, SUID), users/groups.
- Processes, cron, bash scripting, grep/awk/sed.
- ssh, package management.

Windows

- Basic AD concept: user, group, domain.
- PowerShell basics, services, registry idea.

Web fundamentals

- HTTP request/response, headers, cookies, sessions.
- CORS, same-origin policy, REST API, JSON.
- Auth: session vs JWT.

Scripting

- Python: variable, if/else, loop, function, list/dict, file.
- Tarpor requests, sockets, automation. Basic Bash.
- Free: Python for Everybody / CS50P.

Tools intro

- Nmap, Wireshark, Burp Suite (Community).
- Browser DevTools, curl.

RESOURCE

TryHackMe Pre-Security | THM Cyber Security 101 | OverTheWire Bandit | Professor Messer Network+/Security+ | Python for Everybody | CS50P

MILESTONE

Nijer ghore lab banao: **VirtualBox/VMware + Kali Linux + Metasploitable/DVWA**. Lab setup er ekta blog post/README likho.

05 Phase 2 — Core Offensive Skills

Web app hacking, recon, network pentest

PHASE 2 · MASH 8–11

Core Offensive Skills

Mash 8–11

Web application security shobcheye important — job ar bounty duitar jonno.

Vulnerability class	Practice
SQL Injection (in-band, blind, time-based)	PortSwigger SQLi labs, manual + sqlmap
XSS (reflected, stored, DOM)	PortSwigger XSS labs, CSP bypass bujha
Broken Access Control / IDOR	Shobcheye common real-world bug — beshi shomoy dao
Authentication flaws	Password reset logic, 2FA bypass, brute-force protection
CSRF, SSRF	PortSwigger labs, cloud metadata SSRF idea
File upload, Path traversal, LFI/RFI	WordPress e khub common
Business logic flaws	AI shobcheye kom pare — **tomar edge**
API security	OWASP API Top 10, broken object/function level auth

Network / system

- Recon: nmap, enumeration.
- Service exploitation, privilege escalation (Linux + Windows).
- Password attack basics.
- Active Directory intro: Kerberoasting, BloodHound concept.

RESOURCE

PortSwigger Web Security Academy · THM Jr Penetration Tester · HTB Starting Point · HTB Easy machines · OWASP Top 10 · OWASP Testing Guide

MILESTONE

100+ PortSwigger lab, 20–30 THM/HTB machine. Protiti machine er nijer notes (Obsidian/Notion).

06 Phase 3–5 — Cert, Specialize, Job

Prothom cert, public proof, specialization, apply

PHASE 3 · MASH 11–13

First Practical Cert + Public Proof

Mash 11–13

Multiple-choice cert er cheye hands-on exam beshi value dey.

Cert

- Ekta **hands-on** cert (eJPT recommended) — section 07 dekho.

Writeup

- Retired HTB machine er writeup publish (active machine er na — rules violate hoy).

GitHub

- Nijer tool/script: recon automation, WordPress scanner helper, report template.

Sample pentest report

- DVWA/nijer lab er upor: executive summary, findings, CVSS, PoC, remediation.
- **Report writing e onek candidate weak — eta tomake alada korbe.**

PHASE 4 · MASH 13–18

Specialize + Real-world Bugs

Mash 13–18

Generalist hoye junior market e compete kora kothin. Ekta lane bechhe nao.

Specialization	Keno	Shuru kivabe
Web AppSec / Code review	Dev background e natural fit	Open-source PHP/JS code audit, Semgrep
WordPress security	Huge ecosystem, active bounty	Section 10 dekho
Cloud security	Demand high, AWS/Azure misconfig	flAWS.cloud, AWS free tier lab
AI / LLM security	Fastest-growing niche	OWASP Top 10 for LLM, prompt injection labs
SOC / Blue team	Stable entry job beshi	Splunk/ELK, Sigma, LetsDefend, Blue Team Labs

MILESTONE

1–3 ta real finding — bug bounty report (valid/triaged), CVE, ba responsible disclosure. Resume te etai shobcheye shoktishali line. Na pele demoralized hoyo na — writeup + report diyeo apply kora jay.

PHASE 5 · MASH 16–24

Job Hunt + Advanced

Mash 16–24

Perfect howar jonno wait koro na — Phase 4 er majhamajhi thekei apply shuru.

- OSCP — HR filter pass korte shahajjo kore, remote/international job e beshi chaoa hoy. Budget + shomoy thakle neo.
- Section 11 er job hunting strategy follow koro.
- Remote senior target? Phase 4 e AppSec / Cloud / AI lane nile Part 2 er sathe sorasori connect hoy.

07 Certification Strategy

Kon cert, kon order e, keno

MUL KOTHA

Cert er kaj duita: skill shikhte structure dey, ar HR filter pass korate shahajjo kore. Kintu **cert = job na**. Cert + portfolio + real finding = job.

Recommended path (budget-conscious)

Free resource (Phase 1–2) ▶ **eJPT — prothom hands-on cert** ▶ Real bugs + portfolio ▶ PNPT ba OSCP (target onujayi)

Cert	Type	Level	Kokhon nibe
eJPT (INE)	Fully practical	Beginner	**Prothom hands-on cert hisebe best.** Phase 3 e
PNPT (TCM Security)	Practical + report + debrief	Intermediate	eJPT er pore, realistic engagement experience
OSCP (OffSec)	Practical, kothin	Intermediate+	HR filter er “gold standard”. Phase 5 e
BSCP (PortSwigger)	Practical web	Intermediate	Web/AppSec lane bechhe nile
CompTIA Security+	Multiple-choice, theory	Beginner	Corporate/govt/SOC target korle; pentest e optional
CEH	Mostly theory	Beginner	Kichu compliance/govt job e chay; skill proof hisebe weak

BANGLADESH THEKE TIPS

International card (dual-currency) lagbe payment er jonno. Black Friday / Cyber Monday sale e onek cert/platform e boro discount — tokhon kino. eJPT exam 2026 e $249 (INE) — dam bodlay, kenar age official site e check koro.

08 Portfolio & Proof

HR filter pass korar jinish

MUL KOTHA

5,000 applicant er majhe tumi alada hobe **dekhano jay emon kaj** diye.

Proof	Kivabe banabe	Impact
Real CVE / bounty Hall of Fame	Bug bounty / responsible disclosure	● **Shobcheye high**
Technical blog (writeups)	Retired HTB, PortSwigger lab explanation, nijer research	● **High**
GitHub tools	Recon/automation script, Semgrep rule, scanner	● **High** (dev der jonno easy)
Sample pentest report	Nijer lab er upor full professional report	● **Medium-High**
THM/HTB rank & badges	Consistent practice	● **Medium**
CTF participation	CTFtime e event, team join	● **Medium**
LinkedIn presence	Weekly learning post, writeup share	● **Medium** (visibility)

Resume structure

Summary (2 line) ▶ Skills (grouped) ▶ **Projects & Findings** ▶ Certs ▶ Experience ▶ Links (GitHub, blog, HTB)

Projects & Findings (CVE/bounty) age. Dev experience o relevant — secure coding, client site maintain.

09 AI Skill Layer — 2026 e must

AI diye kaj + AI system er security

MUL KOTHA

Duita alada jinish shikhte hobe: **AI diye security kaj** ar **AI system er security**.

A. AI ke tool hisebe use

Speed baray

- Recon output, log, code review te druto pattern dhora — kintu protiti finding **manually verify**.
- Custom script/automation druto likha (Python, Burp extension).
- Report draft — final technical accuracy tomar dayitto.
- Notun vuln class/CVE bujhte AI ke tutor.

B. AI/LLM Security

Notun job lane

- OWASP Top 10 for LLM Applications.
- Prompt injection (direct + indirect), data exfiltration, insecure tool/agent permission, RAG poisoning.
- Practice: Gandalf (Lakera), PortSwigger LLM labs, nijer chatbot banie test.
- AI governance: NIST AI RMF.
- WordPress AI chatbot/content plugin test — khali niche.

WARNING

Shudhu AI tool chalano ke skill dekhio na. Interview e manually explain korte na parle reject. AI speed baraabe, fundamentals replace korbe na.

10 Web / WordPress Path

Optional shortcut — web dev skill thakle

MUL KOTHA

Zero theke: Phase 2 er shomoy HTML, CSS, JS, PHP basic ar chhoto WordPress site/plugin banano shikho. Je nije code likhte pare, she **vulnerable code kothay thake** druto bujhe. Already WP/PHP dev hole 4–6 mash egiye.

WordPress vuln pattern	Ki check korbe
Missing capability check	`current_user_can()` chara AJAX/REST action
Missing / weak nonce	`wp_verify_nonce` / `check_ajax_referer` nei → CSRF
`wp_ajax_nopriv_` **handler**	Unauthenticated user ki korte pare
REST API permission_callback	`__return_true` diye sensitive route
SQL Injection	`$wpdb->query` e `prepare()` chara user input
XSS	`esc_html`/`esc_attr`/`wp_kses` chara output
File upload / LFI	Extension/MIME check, `include()` e user input
Privilege escalation	`update_option` / user meta / role change user input theke
Shortcode / Elementor widget attr.	Contributor-level stored XSS — khub common

Earning path

- **Wordfence Bug Bounty** — plugin/theme vuln e bounty; in-scope vuln e $31,200 porjonto (high severity + popular plugin).
- **Patchstack** — vuln database + researcher program; current rules official site e.
- Shuru koro **kom install er plugin** theke, pore popular plugin.

Portfolio + service

- Semgrep diye WordPress-specific rule likho — GitHub portfolio.
- Web dev client thakle **"WordPress Security Audit + Hardening"** service add koro — career er moddhei earning.

UNFAIR ADVANTAGE

Developer + security researcher = plugin/software company gulor jonno ideal AppSec hire. Ei combination khub kom manush er ache.

11 Job Hunting Strategy

Bangladesh theke remote / local / freelance

Channel	Kivabe	Note
Local companies	Bank, telco, fintech (MFS), software firm, security firm	SOC/AppSec entry beshi; Security+ help kore
International remote	LinkedIn, company career page, security job board	OSCP + public proof beshi lage; time-zone flexibility
Freelance	Upwork, existing client, referral	WP security audit, malware cleanup, hardening — druto earning
Bug bounty	Wordfence, Patchstack, HackerOne, Bugcrowd, Intigriti	Income irregular — full-time dependence age na
Community	BD cybersecurity community, CTF team, Discord, LinkedIn	Referral e onek job hoy

Apply korar tactics

Do

- Protiti application e relevant project/finding highlight.
- Hiring manager/security lead ke short message + best writeup link.
- Take-home test e report quality te shobcheye beshi focus.

Interview prep

- OWASP Top 10 deep explain.
- Ekta machine/bug live walk-through.
- Scenario: “login page test korbe kivabe?”
- Nijer report dekhao.

Don't

- Mass apply.
- Prothom job e title/salary ke learning ar real exposure er cheye beshi gurutto deya.

12 Weekly Routine + Common Bhul

Din e 2–3 ghonta — ki kokhon korbe, ki korbe na

MUL KOTHA

Consistency > intensity. Din e 2 ghonta × 12 mash, weekend e 12 ghonta × 3 mash er cheye onek beshi kaje dey. Din er ekta fixed shomoy (jemon raat 9–11) shudhu study er jonno block koro.

Phase 0 er routine

Protidin	Shoni–Robi	Mongol–Budh	Brihoshpoti	Shukro
Typing practice (keybr/typing.com)	Computer/Windows lesson + nije haate try	Internet, email, safety, search practice	IT fundamentals, number system, CMD	English tech video + notes review
20–30 min	**1.5 h**	**1.5 h**	**1.5 h**	**1 h**

Phase 1 theke routine

Shoni	Robi	Shom	Mongol	Budh	Brihosh	Shukro
Notun theory / course module	Practice lab (PortSwigger/THM)	Practice lab + notes update	Scripting / tool building	HTB/THM machine	Bug hunting / WP plugin code review	Writeup / blog / LinkedIn + weekly review
2–3 h	**2 h**	**2 h**	**2 h**	**2–3 h**	**2–3 h**	**1–2 h**

Common bhul — avoid koro

Bhul	Keno problem	Ki korbe
Tutorial hell	Shudhu video, hands-on nai	1 ghonta video = 2 ghonta practice
Fundamentals skip	Pore advanced e atke jaba	Phase 0–1 shesh koro, rush na
Tool-dependent	AI/scanner ei kaj kore felche	Manual testing, tool ki kore bujho
Cert collector	Proof chara cert value kom	1–2 practical cert + portfolio
Notes na rakha	Ek mash por shob bhule jaba	Obsidian/Notion e structured notes
Shob kichu ekshathe	Kono kichutei depth hoy na	Ekta lane e specialize
Perfection er jonno wait	Apply/publish deri	70% ready holei apply/publish
Scope er baire test	Legal risk, ban	Section 13 follow koro

13 Legal & Ethics — Must-know

Permission chara kichu na — must-know rules

GOLDEN RULE

Permission chara kono system e test kora **illegal**. Bangladesh e o cyber law ache, international o. Ekbar record kharap hole security career shesh.

Korbe

- Shudhu nijer lab, practice platform (THM/HTB/PortSwigger), ba **written authorization** ache emon target.
- Bug bounty program er **scope ar rules** line-by-line porho.
- Client site e written scope + permission (email/contract) rakho.
- Responsible disclosure: vendor ke report, fix er pore publish.

Korbe na

- Out-of-scope test — no reward + ban.
- Real user data download/share — minimum proof niye thamo.
- DoS/destructive test — explicitly allowed na thakle kokhonoi na.
- Vuln public e post — fix er age.

14 Junior Job-Ready Checklist

Part 1 shesh — apply korar age

00	Computer, Windows, typing (40+ WPM), internet safety — Phase 0 test pass	☐
01	Networking + Linux + web fundamentals confidently explain korte paro	☐
02	OWASP Top 10 protiti ta exploit + fix explain korte paro	☐
03	100+ PortSwigger lab, 30+ THM/HTB machine	☐
04	1 ta practical cert (eJPT/PNPT/OSCP)	☐
05	5+ public writeup (blog/GitHub)	☐
06	1+ real finding (bounty/CVE/disclosure)	☐
07	1 ta professional sample pentest report	☐
08	GitHub e 2–3 ta security tool/script	☐
09	AI/LLM security basics (prompt injection etc.) jano	☐
10	Updated resume + LinkedIn + portfolio link	☐

NEXT

Advanced level e international remote job chao? Ei checklist shesh hole **Part 2** follow koro.

PART 2

Advanced Remote Track

International remote e mid/senior level job paoar jonno Part 1 er por ar ki ki shikhte hobe — Bangladesh er local job na, sorasori international company/client.

3–5 bochor
zero theke senior (total)

6 ta
advanced track

4 ta pillar
skill · experience · reputation · English

AGE ETA BUJHO
"Advanced" mane mid/senior level — company dekhe tumi age **real kaj korecho kina** (paid experience, client handle, real finding). Shudhu course/cert diye senior hoy na. Bhalo khobor: ei experience Bangladesh er office e na giye **remote contract / freelance / platform** diyei banano jay.

Advanced remote job er 4 pillar

Deep skill
Section 17–19

- Ekta primary track e advanced level + 1 advanced cert.

Paid experience
Section 21

- 12–18+ mash paid security kaj — remote holeo count.

Public reputation
Section 21

- CVE, research blog, talk, open-source tool, leaderboard.

Communication
Section 20

- Fluent spoken English, async kaj, client handle.

15 Advanced Remote: Bastobota

Senior remote role e company ki dekhe

MUL KOTHA

Remote job e tumi shara duniyar candidate er sathe compete korcho. Tai **proof** ar **communication** local job er cheye onek beshi gurutto pay.

Company ja dekhe	Keno	Tumi kivabe dekhabe
2–5+ bochor experience	Supervision chara kaj korte parbe kina	Freelance, PtaaS, contract — shob paid kaj count
Deep specialization	Generalist senior kom hire hoy	Ekta lane e advanced cert + public research
Public reputation	Remote e tomake dekhe na — kaj dekhe	CVE, leaderboard, blog, talk, open-source tool
Client-facing skill	Senior ra client call/debrief chalay	Nijer freelance client er case study
Fluent spoken English	Shob meeting, interview English e	Mock interview, recorded walkthrough
Reliability	Time zone, internet, power — deadline miss na	Backup setup, async update

Realistic advanced remote role

Role	Kaj	Kar jonno bhalo
Senior Pentester / Consultant	Web, API, network, cloud pentest + client report	Offensive lane, consultancy
Application Security Engineer	Code review, threat model, secure SDLC	**Developer background thakle best**
Cloud / DevSecOps Security	AWS/Azure/K8s hardening, IaC, CI/CD	Demand + salary duitai high
Red Team Operator	Adversary simulation, AD/Entra, C2, OPSEC	Deep infra interest, lomba path
AI / LLM Security Engineer	LLM app, agent, RAG system test + secure	Notun field — early mover
Detection Engineer / Hunter	Detection-as-code, SIEM/EDR rule, hunt	Blue team, stable
Smart Contract Auditor	Solidity audit, competitive audit	Fully remote, global, merit-based

VISA / CITIZENSHIP FILTER

Onek US job e “US citizen / security clearance” lage — skip koro. Target: “Remote — Worldwide”, “EMEA/APAC”, ba contractor hire kore emon company. EU/UK/Australia/Singapore er onek consultancy international contractor ney.

16 Roadmap Extension — Phase 6 to 8

Mash 24–60: specialization → paid exp → senior

MUL KOTHA

Phase 6 ar 7 overlap korbe — shikhte shikhte paid kaj shuru korbe.

PHASE 6

Deep Specialization

Mash 24–30

Ekta primary track (section 17) + core advanced skill (section 18).

OUTPUT
- 1 ta advanced cert
- 3–5 ta deep research post

PHASE 7

Paid Remote Experience

Mash 24–42

Freelance, PtaaS platform, private bounty, remote contract.

OUTPUT
- 12–18 mash paid kaj
- 3+ client testimonial

PHASE 8

Senior Signal

Mash 36–60

Original research, CVE, talk, open-source, mentoring.

OUTPUT
- Senior remote offer
- Recruiter nijei message kore

RULE

Advanced level e output mane shudhu lab writeup na — **original kaj**: notun bug class er research, nijer tool jeta onno manush use kore, real client er (anonymized) case study.

17 Specialization Tracks

6 ta advanced lane — ekta primary, ekta secondary

MUL KOTHA

Shob gula korte gele kono tai senior level e jabe na. Part 1 er Phase 4 e je lane nisila, sheta continue korai shobcheye druto. **Remote demand e shera combo: A (AppSec) + B (Cloud).**

A · Advanced Web / API / AppSec

- Request smuggling, cache poisoning, race condition, SSTI, deserialization, prototype pollution.
- OAuth/OIDC, SAML, JWT attack, SSO misconfig.
- GraphQL, mass assignment, BOLA/BFLA.
- **Source code review** 2–3 language e (Java, Node/TS, Python, PHP, Go).
- Secure SDLC: threat model, Semgrep/CodeQL in CI, supply chain (SBOM).

Practice: PortSwigger Expert labs, open-source CVE hunt, custom Semgrep/CodeQL rule

Cert: BSCP → OSWE

B · Cloud Security / DevSecOps

- AWS deep: IAM policy evaluation, role chaining, SCP, CloudTrail, GuardDuty.
- Tarpor Azure/Entra ID, GCP basics.
- Docker + Kubernetes: RBAC, pod security, network policy, secrets.
- Terraform + Checkov/Trivy; GitHub Actions security.

Practice: flaws.cloud, CloudGoat, Pwned Labs, Kubernetes Goat

Cert: AWS Security Specialty, CKA → CKS

C · Red Team / Infrastructure

- AD deep: Kerberos delegation, ADCS abuse, NTLM relay, ACL abuse.
- Entra ID (Azure AD) attack path, token abuse.
- C2 (Sliver, Mythic) **nijer lab e**, OPSEC, EDR kivabe detect kore — shudhu authorized engagement e.

Practice: GOAD lab, HTB Pro Labs

Cert: OSCP+ → CRTO → OSEP

D · AI / LLM Security

- ML basics: transformer, embedding, fine-tuning, RAG.
- Agent/tool abuse, indirect prompt injection, MCP permission.
- Model supply chain: unsafe pickle load, poisoned data.
- Tool: garak, PyRIT, promptfoo. MITRE ATLAS, NIST AI RMF, EU AI Act.

Practice: Nijer RAG/agent app banie attack + defend; AI/ML bounty (huntr)

Cert: Ekhono standard nei — public research e proof

E · Detection Engineering

- Detection-as-code: Sigma, KQL, SPL + version control.
- Sysmon/EDR telemetry, MITRE ATT&CK mapping.
- IR + DFIR: Volatility, log timeline, malware basic.

Practice: Wazuh/ELK lab, attack simulate kore detection likho

Cert: BTL2 / SANS-level (budget thakle)

F · Smart Contract / Web3

- Solidity, EVM; reentrancy, access control, oracle manipulation, rounding bug.
- Foundry (PoC), Slither; DeFi (AMM, lending).
- Competitive audit: country/degree dekhe na, result dekhe.

Practice: Code4rena, Sherlock, Cantina competitive audit

Cert: Leaderboard rank-i cert

18 Core Advanced Skills

Je skill shob track e lagbe

MUL KOTHA

Junior theke senior er parthokko shudhu notun bug jana na — **design bujha, risk bujhano, ar team ke guide kora**.

Skill	Junior (Part 1)	Advanced (ekhon lagbe)
Programming	Python script	Production-quality tool (test, docs) Python + Go/Rust/C#; Java/JS/C porte paro
Threat modeling	OWASP Top 10 jano	Data flow diagram, STRIDE, attack tree — design review
Risk communication	CVSS dite paro	CVSS v4 + **business impact**; CTO ke 5 minute e bujhao
Reporting	Sample report	Client-ready report, executive summary, retest, remediation roadmap
Cloud	Basic idea	AWS e hands-on, nijer track e apply
Automation + AI	AI tutor	LLM API diye security workflow automate — verify nije
Exploit basics	Public exploit chalao	Debugger, assembly porte paro, exploit modify (deep: OSED)
Compliance	—	SOC 2, ISO 27001, PCI DSS, GDPR — client keno test korache
Mentoring	—	Junior guide, review, documentation

19 Advanced Certification Map

Shob nite hobe na — nijer track er 1–2 ta

Cert	Track	Type	Keno / kokhon
OSCP+ (OffSec)	Pentest (all)	Practical, 24h	Remote HR filter er gold standard — Part 1 e na nile ekhon
BSCP (PortSwigger)	Web / AppSec	Practical web	Kom dam, web skill er strong proof
OSWE (OffSec)	Web / AppSec	White-box code review	Senior AppSec / web pentest er jonno top
OSEP (OffSec)	Red team	Practical, evasion + AD	Senior pentester / red team
CRTO (Zero-Point)	Red team	Practical C2 / AD	Red team entry, OSEP er cheye shosta
OSED (OffSec)	Exploit dev	Practical	Optional — vuln research e jete chaile
AWS Security Specialty	Cloud	Multiple-choice	Cloud security role e HR filter
CKA → CKS (CNCF)	Cloud / K8s	Practical	Kubernetes security role

BUDGET TIP

OffSec er Learn One (1 bochor subscription) e course + exam attempt thake — ek cert e focus korle shosta. Sale e kino. Dam ar exam format bodlay — official site e check koro.

20 Remote-ready Professional Skills

English, async kaj, setup, payment, contract

MUL KOTHA

Technical skill er pashapashi egulo na thakle offer pabe na — ba pele o rakhte parbe na.

Spoken English

Shobcheye boro gap

- Target: 30–45 min technical interview fluently.
- Din e 15–20 min nijer kaj English e bole record → shuno → abar.
- Shoptahe 1 mock interview (manush + AI voice).
- Best 3 finding er 5-min English walkthrough video.

Async kaj

Remote e eta-i tomar presence

- Clear written update: ki korecho, ki blocked, next step.
- Slack, Jira/Linear, Notion, Git PR workflow.
- US/EU er sathe din e 3–4 ghonta overlap.

Bangladesh-specific setup

Jinish	Keno	Ki korbe
Power backup	Load shedding e meeting/exam miss	IPS/UPS (router + laptop 3–4 ghonta)
Internet backup	Ek ISP down hole kaj bondho	2 ta ISP ba broadband + mobile hotspot
Audio / video	First impression	Noise-cancel headset, webcam, quiet room
Payment	Taka aste dery/fee	Payoneer, bank wire (SWIFT) — bank er sathe age kotha
Contract / EOR	Company BD te entity nei	Deel, Remote.com, Oyster diye hire
Tax / legal	Foreign income er niyom	Tax lawyer ba bank e advice

NDA + DATA HANDLING

Client er data, report, credential kokhono personal cloud/AI tool e upload koro na jodi contract allow na kore. Ekbar data leak hole career shesh.

21 Experience + Remote Job Hunting

Remote theke-i experience banano ladder

MUL KOTHA

Senior remote job er boro barrier “experience nei”. Nicher ladder diye uthle Bangladesh er office job chara-i experience hobe.

1 Freelance security kaj

2 PtaaS / crowd pentest platform

3 Private bounty invite

4 Remote contract (consultancy)

5 Full-time remote mid → senior

Step	Kivabe dhukbe	Ki pabe
1 · Freelance	Upwork, network, WP audit/hardening, startup pentest	Paid experience, testimonial
2 · PtaaS platform	Synack Red Team, Cobalt Core, HackerOne/Bugcrowd pentest — assessment pass	Structured paid pentest, report experience
3 · Private bounty	Public program e valid report → private invite	Kom competition, beshi reward
4 · Remote contract	Boutique pentest firm (EU/UK/AU) — LinkedIn e direct message	Real engagement, reference
5 · Full-time	Upore er shob proof niye apply	Stable senior role

Platform eligibility country onujayi bodlay — join korar age official site e Bangladesh allowed kina check koro.

Kothay khujbe

- LinkedIn: Remote + “Worldwide”/“EMEA” filter.
- Wellfound, We Work Remotely, Remote OK, infosec job board.
- Target: consultancy, security product, SaaS/fintech, Web3 audit firm.
- Discord/Slack community, open-source contribution.

Senior reputation

- **Original research** blog — lab writeup er cheye onek beshi value.
- Virtual BSides, OWASP meetup, local BD event e talk.
- Open-source tool maintain (star + user = proof).
- Bounty/audit leaderboard — recruiter nijei message kore.

22 Interview & Negotiation

Senior interview format + rate/salary

Round	Ki hoy	Prep
Recruiter screen	Background, English, salary, time zone	2-min English self-intro
Technical deep-dive	Nijer project/bug niye "keno, kivabe"	CV er protiti line deep e explain
Practical / take-home	Live hacking, code review, take-home pentest + report	**Report quality** e beshi shomoy
Scenario / design	"Ei architecture threat model koro"	Threat model + methodology bole practice
Behavioral	Client conflict, deadline, mistake	STAR format e 5–6 ta real story

Negotiation

Rate / salary

- Role + region onujayi research — BD local rate diye nijeke value koro na.
- Contractor: equipment, tax, chuti, internet khoroch dhore rate.

Offer + contract

- Prothom offer e "yes" na — range jiggesh koro.
- Written offer er age resign/commitment na.
- Payment schedule, currency, termination, IP/NDA clause porhe sign.

23 Advanced Remote Checklist

Senior remote role e apply korar age

01	Ekta primary track e deep skill + 1 advanced cert (OSWE/OSEP/BSCP/CRTO/AWS Security/CKS)	☐
02	12–18+ mash paid security experience (freelance, PtaaS, contract)	☐
03	3+ high/critical finding: CVE, bounty, private program, audit	☐
04	5+ original research / deep technical post	☐
05	1 ta open-source security tool jeta onno manush use kore	☐
06	1 ta talk / webinar / podcast	☐
07	Client kickoff, debrief, executive summary nije handle korecho	☐
08	Threat modeling + secure design review	☐
09	SOC 2 / ISO 27001 / PCI DSS basic context	☐
10	30–45 min technical interview English e comfortable	☐
11	Backup power + internet + pro audio/video + payment channel	☐
12	English portfolio site + LinkedIn + 2–3 reference	☐

MUL KOTHA

Advanced remote job = **deep skill + proven paid experience + public reputation + fluent communication**. Part 1 skill dey, Part 2 sheta ke senior-level proof e convert kore.
